Poorman's PDF

Cut an 8-1/2 x 5" [1/2] sheet of paper
Score at 2, 4, 6, 8 on 8-1/2" side.
Score at 2" on 5"
Cut score line where you see cut.
Cut off the other 1/2" tab at score line and 2" mark.

Decorate with designer series paper as you see my sample and AFTER you've decorated it adhere 1/2" tab to inside of other side of box. The DO NOT fold side will be straight up

Glue the two small tabs inside the box, this is where you will adhere pop up decorations.

Or you can just print this out and use as template.

I'm no expert, just goes to prove anyone can create beautiful cards. =)

Have a fabulous day!

Maggie
